

PMMA - TUBURI SI BARE ACRILICE

Barele si tuburile acrilice au exact aceleasi proprietati ca si placile PMMA.
Disponibile intr-o varietate mare de diametre, sunt utilizate atat in aplicatii decorative cat si tehnice.
Lungimea standard a tuburilor si barelor acrilice este 2000 mm.

Aplicatii:

- Decoratiuni
- Signalistica indor si outdoor
- Amenajari de spatii si magazine , baruri, discoteci, cluburi
